To Plaintiffs and Others Filing First Papers. If you are filing a first paper (for example, a complaint) in a civil case, you must complete and file, along with your first paper, the *Civil Case Cover Sheet* contained on page 1. This information will be used to compile statistics about the types and numbers of cases filed. You must complete items 1 through 6 on the sheet. In item 1, you must check one box for the case type that best describes the case. If the case fits both a general and a more specific type of case listed in item 1, check the more specific one. If the case has multiple causes of action, check the box that best indicates the primary cause of action. To assist you in completing the sheet, examples of the cases that belong under each case type in item 1 are provided below. A cover sheet must be filed only with your initial paper. Failure to file a cover sheet with the first paper filed in a civil case may subject a party, its counsel, or both to sanctions under rules 2.30 and 3.220 of the California Rules of Court.

To Parties in Rule 3.740 Collections Cases. A "collections case" under rule 3.740 is defined as an action for recovery of money owed in a sum stated to be certain that is not more than \$25,000, exclusive of interest and attorney's fees, arising from a transaction in which property, services, or money was acquired on credit. A collections case does not include an action seeking the following: (1) tort damages, (2) punitive damages, (3) recovery of real property, (4) recovery of personal property, or (5) a prejudgment writ of attachment. The identification of a case as a rule 3.740 collections case on this form means that it will be exempt from the general time-for-service requirements and case management rules, unless a defendant files a responsive pleading. A rule 3.740 collections case will be subject to the requirements for service and obtaining a judgment in rule 3.740.

To Parties in Complex Cases. In complex cases only, parties must also use the *Civil Case Cover Sheet* to designate whether the case is complex. If a plaintiff believes the case is complex under rule 3.400 of the California Rules of Court, this must be indicated by completing the appropriate boxes in items 1 and 2. If a plaintiff designates a case as complex, the cover sheet must be served with the complaint on all parties to the action. A defendant may file and serve no later than the time of its first appearance a joinder in the plaintiff's designation, a counter-designation that the case is not complex, or, if the plaintiff has made no designation, a designation that the case is complex.

Re: Complaint #201335621

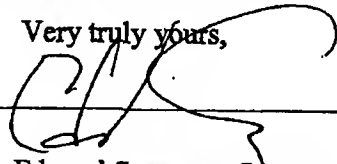

Dear Appellant:

On March 19, 2014, the Abatement Appeals Board (AAB) held a duly noticed hearing concerning the property located at 505 - 26th Avenue. At the hearing, the AAB heard oral testimony and reviewed the documentary evidence provided by the Department of Building Inspection, the appellant and other interested persons.

After deliberation of the evidence submitted and the relief sought, the AAB found that the evidence submitted established code violations and therefore decided: (1) the Order of Abatement is upheld and held in abeyance for seven days from the date of the March 19 hearing to allow the property owner time to obtain a permit, complete the required work, and complete a final inspection; (2) the Assessment of Costs is reduced to half of the stated amount and imposed.

All time periods specified in this decision become effective on the date of the Notice of Decision. The Abatement Appeals Board may rehear an appeal upon which a Decision has been rendered, provided a request for a rehearing has been made in writing 10 days of the date of the decision. You may obtain a rehearing request form at 1660 Mission Street, 6th Floor, San Francisco, CA 94103.
